

KBC Accident Manager

Does your business's HR or health & safety department register and follow up incidents and accidents in the workplace on a daily basis?

Wish you had a system to help with regular risk management requirements under your health & safety policy?

If so, you'll doubtlessly have asked yourself how you can more efficiently deal with the attendant paperwork.

Look no further than KBC Accident Manager, our practical and easy-to-use system for filing and managing work-related accident insurance claims digitally. It also includes a host of useful support features for health & safety professionals.

What KBC Accident Manager can do for you

Manage your work-related accident claims online. File, update and track claims, submit supporting documents and more. Whenever you need it and wherever you are, KBC Accident Manager is always there for you.

KBC Accident Manager is also available with our optional Safety Manager, packed with risk analysis and other useful features to support health & safety officers in their risk management work.

Get the benefits

Work faster and more efficiently with ease

- Use it right out of the box with menus, handy lists, forms and features you can navigate and use effortlessly.
- Contact our specialists directly and get personal guidance if you need it.
- Get help completing claims online, with Accident Manager only showing you what you need to fill in and checking in the background for errors or misunderstandings.

- Integrate your own business databases so there's no need to keep re-entering personnel and other details.
- Send them straight to our claims handlers online to have them settled even more quickly and efficiently.
- Receive instant alerts notifying you of key events (like when accident claims aren't accepted) and have them sent to a specific e-mail address.

Use it anywhere at any time

- Enter, send and manage claims 24/7, even outside KBC Insurance opening hours if you need to.

- Get the network version of KBC Accident Manager so multiple staff and departments can use it at the same time from wherever they are.

See everything online

- View extensive details of work-related claims you are currently dealing with and stay updated on their status, with the ability to see:
 - who at KBC is handling your accident claims;
 - whether and when a claim was opened;
 - what the status of a claim is;
 - whether claims have been settled and for how much.

Stay secure

- KBC Accident Manager fulfils all the standards and requirements for secure online communication.
